Re: Review and Consideration of the Proposed Kettlestone Residential Urban Renewal Plan for its Conformance with Imagine Waukeee 2040 Comprehensive Plan

Attachment: Proposed Kettlestone Residential Urban Renewal Plan

GENERAL INFORMATION

The City of Waukeee is proposing a new urban renewal area identified in the Kettlestone Residential Urban Renewal Plan. The proposed plan is before the Planning & Zoning Commission for a recommendation as to whether the Urban Renewal Plan is in conformity with City's general plan for development as a whole.

PURPOSE

The purpose of the proposed Kettlestone Residential Urban Renewal Plan is to provide opportunities, incentives, and sites to promote economic development (commercial and industrial) within the Urban Renewal Area. Additionally, the proposed plan is intended to facilitate new development to create employment opportunities and activate new economic investment leading to increased taxable valuation.

BACKGROUND INFORMATION

On April 1, 2019, the City of Waukeee adopted its Comprehensive Plan, Imagine Waukeee 2040; a prerequisite for adopting urban renewal plans. After a comprehensive plan is adopted, the municipality may prepare, adopt, and implement an urban renewal plan for the purpose of rehabilitation, conservation, redevelopment, development, or a combination thereof, of a designated urban renewal area to promote the public health, safety, or welfare of the residents of the municipality.

DEVELOPMENT PLAN

The proposed Urban Renewal Area is within the Kettlestone Corridor and was included within the 2015 master plan for the corridor. The land uses shown within the Kettlestone Master Plan for the subject property are Neighborhood Commercial, Office, Single-Family Residential, and Medium Density Residential. The Kettlestone Master Plan is intended to act as a guide for land use while at the same time allowing for flexibility of land uses. The intent is that the land use designations can move based upon market demands and the type of development. The current zoning of K-MF-Stacked High / PD-1 while more intense than single-family and medium density residential, the Kettlestone Corridor was intended to have higher density residential uses located within in it. In general, the proposed districts are placing the more intense uses closer to the Grand Prairie Parkway corridor and transitioning to the less intense use along the eastern boundary which abuts an existing single-family neighborhood located within the City of West Des Moines.
